

Welcome Aboard!

Southeast Regional Maintenance Center has a long-standing history of service to the Fleet. Soon you will be an active and important member of TEAM SERMC. Your assignment here brings with it the opportunity to professionally grow, by exposing you to things that are not available in many areas. Along with increasing your professional skills this is the time to seek continued education and training that is offered through a variety of services. Regardless of where you are in your career if you are focused on success, I am sure your tour of duty will be one of the most rewarding you have experienced.

Once again Welcome Aboard. If you have questions please stay in contact with your sponsor. If you are unable to make contact with your sponsor, I can be reached at comm: (904) 270-5888 or at my e-mail greg.kinder@navy.mil
